ADARSH SINGH

BCA Student | Aspiring Software Developer | Interested in Cybersecurity

Portfolio GitHub X Email: [adarshsingh9674@gmail.com Phone: [9546347100]

PROFESSIONAL SUMMARY

BCA student building a foundation in software development, web technologies, and computer networking. Interested in creating practical web applications and developing deeper skills in backend engineering and cybersecurity. Hands-on experience through personal web projects, with a learning approach focused on understanding fundamentals and applying them in practice.

EDUCATION

Bachelor of Computer Applications (BCA) **2026 – Present**

Nitishwar College, Babasaheb Bhimrao Ambedkar Bihar University (BRABU), Muzaffarpur

TECHNICAL SKILLS

Programming	C, C++, Python, JavaScript
Web	HTML, CSS, Tailwind CSS, React
Backend	Node.js and Express.js — currently learning
Core concepts	Networking fundamentals; data structures and algorithms (searching and sorting)
Tools	Git, GitHub, VS Code, claude, chatgpt
Exploring	Full-stack development, cybersecurity, Linux, DevOps / DevSecOps

PROJECTS

Personal Portfolio Website

Designed and built a personal portfolio using HTML, CSS, and JavaScript to present profile information, skills, learning journey, and projects. Includes responsive styling and a theme toggle.

Live website

Prime Motors Website

Built a website for an automotive service business focused on repair, denting, painting, and customization. Includes service information and customer enquiry/booking interface.

Live website

Honey E-commerce Platform — In Development

Developing an e-commerce platform concept for a honey and honey-based food brand. Current project stack: Next.js, TypeScript, and PostgreSQL. Early-stage project; not yet presented as a completed deployment.

Current learning/build project

CURRENT LEARNING FOCUS

Strengthening programming and computer science fundamentals; building backend and full-stack development skills; exploring cybersecurity and the foundations relevant to DevSecOps.
